
Dear Sir/Ma,

TRANSFORM THE WAY YOU CONDUCT ELECTIONS

E-VOTING SOLUTIONS

Elections should be simple to manage, convenient for voters and trusted by everyone involved.

Whether it is an election within an estate, school, university, church, mosque, association, cooperative, professional body or any other group, the process of managing voters, coordinating the election, counting votes and announcing results can be stressful and time-consuming.

Traditional voting can also require physical attendance, extensive planning, manual vote counting and significant administrative effort.

Prowbys Innovation presents the Prowbys E-Voting Solution—a digital voting platform designed to make elections easier to manage, more accessible to voters and more efficient from start to finish.

With the Prowbys E-Voting Solution, eligible voters can conveniently participate in an election using their mobile phone, tablet or computer, while election administrators manage the process through a centralized digital platform.

With Prowbys E-Voting, you can:

- Set up and manage elections digitally
- Register and manage eligible voters
- Create electoral positions and present candidates
- Allow eligible voters to vote online
- Control who is eligible to participate
- Monitor voting participation
- Automate vote counting
- Access results quickly
- Generate election reports
- Reduce the stress and administrative workload of physical elections

What does this mean for your election?

Less stress. Greater convenience. Easier election management. Faster results. And the ability to give more eligible voters the opportunity to participate—regardless of where they are.

From a residents' association election to a Students' Union election, a school election, church or mosque leadership election, cooperative election or any other voting process, the Prowbys E-Voting Solution can be configured to meet the specific structure and requirements of your election.

We would be pleased to demonstrate the Prowbys E-Voting Solution and show you how your next election can be managed through a smarter and more convenient digital voting experience.

Let's make your next election simpler, smarter and easier to manage.
