ABOUT PROWBYS

TECHNOLOGY THAT WORKS FOR YOUR ORGANIZATION

Prowbys Innovation is a technology solutions company focused on helping organizations improve the way they operate, manage information, communicate, transact and grow.

We develop and deploy practical digital solutions that address real organizational and business challenges.

Our approach goes beyond simply providing software.

We seek to understand how an organization works, identify opportunities for improvement, and provide technology that makes its processes more efficient, organized and accessible.

From membership and institutional management to digital elections, school administration, payments, cooperative management, business communication, websites, digital solutions and outdoor advertising, Prowbys provides solutions designed around the needs of modern organizations.

OUR APPROACH

TECHNOLOGY BEGINS WITH UNDERSTANDING

Every organization is different that is why we do not believe in forcing every organization into the same technology model.

We begin by understanding your:

- Organization
- People
- Processes
- Customers or members
- Operational challenges
- Technology requirements
- Growth objectives

We then recommend or develop the solution that best fits your requirements.

OUR 5-STEP APPROACH

The right technology should make work simpler, information more accessible, processes more organized and services easier to deliver.

OUR E-PAYMENT

MAKE PAYMENTS EASIER FOR YOUR CUSTOMERS, MEMBERS & STAKEHOLDERS

Digital payment is no longer simply a convenience. For many organizations, it is an important part of providing efficient service.

Prowbys is in partnership with various payment gateway providers licensed by the CBN and helps organizations establish digital payment processes that make it easier to collect approved payments and maintain organized payment information.

The advertisement features a light purple background with a large, bold title 'Digital Payment Solutions' in dark blue. Above the title, the Prowbys logo is displayed with three dots and the word 'Prowbys' in a blue circle. Below the title, a subtitle reads 'Secure, Convenient, and Instant Transactions with Digital Payment Solutions'. Four purple buttons with white checkmarks are arranged in a 2x2 grid, each containing a benefit: 'Convenience and Speed', 'Global Accessibility', 'High Security', and 'Real-Time Updates'. Below these buttons, a text block states 'No more delay because of bank statement and confused purpose of payment!'. At the bottom left, the text 'Activate Now' is followed by the website 'www.prowbys.com'. On the right side, there is an illustration of a hand holding a green banknote, with several gold coins floating around it. The background also features abstract purple and blue shapes.

INSTITUTIONS

Digital management systems, portals, payments, communication and customized solutions.

WHY PROWBYS?

MORE THAN A SOFTWARE PROVIDER

We believe technology should create measurable practical value.

01 — PRACTICAL SOLUTIONS

We focus on solving real operational problems rather than introducing technology without purpose.

02 — ORGANIZATION-CENTRIC

We consider your processes, users and objectives before recommending a solution.

03 — INTEGRATED THINKING

We consider how different digital systems can work together.

04 — SCALABLE

Solutions can be designed to support organizations as their needs develop.

05 — IMPLEMENTATION SUPPORT

We support the journey from planning to deployment and adoption.

06 — CONTINUOUS IMPROVEMENT

Technology and organizational needs evolve. Our relationship does not have to end at deployment.

OUR CORE DIFFERENCE

WE DON'T JUST ASK:

"WHAT SOFTWARE DO YOU NEED?"

WE ASK:

"WHAT ARE YOU TRYING TO ACHIEVE?"

That difference helps us recommend technology based on your actual organizational needs.
